EDUCATION

Texas Tech University - Edward E. Whitacre Jr. College of Engineering

Bachelor of Science in Computer Science

Graduation Date: 2028

GPA: 3.3

Relevant Coursework: Data Structures, Assembly Language, Linear Algebra

PROJECTS

Weather Data Analysis Project, Texas Tech University

Spring 2025

- Analyzed historical weather datasets using Python to identify trends and patterns
- Created clear data visualizations to communicate findings effectively
- Interpreted results and presented insights as part of a collaborative course project

Hackwestx, Google Developer Groups

Fall 2026

- Collaborated with a team to develop a website for browsing books
- Contributed to the development and design of the website
- Worked with teammates to troubleshoot and improve the project

Personal Website

Fall 2026

- Built and deployed a personal website to practice web development and version control.
- Created pages to showcase projects, drawings, and other work.
- Used GitHub to manage and update the website.

COURSEWORK

Computer Science Coursework, Texas Tech University

Student 2024–Present

- Applied programming concepts through hands-on assignments in Python and C
- Practiced problem-solving with arrays, pointers, functions, recursion, and dynamic memory
- Worked with data structures including structs and linked lists
- Completed programming projects individually and with classmates

ADDITIONAL SKILLS & INTERESTS

- Programming Languages: Python, C
- Languages: Spanish, English
- Web Technologies: HTML, CSS, JavaScript, Git/Github
- Data Tools & Concepts: Data visualization, trend analysis
